Abdollah Zakeri, Ph.D.

Redwood City, CA — 720-205-8662 — abdollah.zakeri1997@gmail.com — Abdollah Zakeri — https://abdollahzakeri.github.io

Summary — Senior data scientist at C3.ai; Computer science Ph.D. degree from University of Houston, with expertise in computer vision, deep learning, and robotics, backed by strong research, publications, and industry experience.

Selected Skills

Languages	Python, C++, Shell, MATLAB
Deep Learning	PyTorch, TensorFlow, Lightning
Computer Vision	OpenCV, YOLO, TorchVision, Detectron2
LLMs / GenAI	Transformers, Tokenizers, LangChain, OpenAI
Multimodal	Vision-Language Models, Prompt Engineering
Deployment	Docker, Conda, TensorRT, CUDA, Slurm, Git
Data Science	Pandas, Numpy, SQL, Matplotlib, Scikit-KLearn, XGBoost, LightGBM

Experience

University of Oklahoma - Postdoctoral Research Fellow — **Moore, OK - May 2026 – Present**
- Development of foundation 2D and 3D computer vision models for clinical and medical use cases.

C3.ai - Senior Data Scientist — **Redwood City, CA - Sep 2025 – April 2026**
- Development and deployment of end-to-end ML pipelines in several projects, including inventory optimization, time series forecasting using transformers, and data mapping/ingestion using LLMs.

University of Houston - Graduate Research Assistant, Robotics & AI — **Houston, TX - Aug 2022 – Aug 2025**
- Led AI and vision system development for an autonomous mushroom harvesting robot.
- Learning Disability (LD) risk assessment based on handwriting using multi-modal classification
- COVID severity detection for pediatric patients using CXR images and vision transformer

C3.ai - Data Science Intern — **Redwood City, CA - May 2024 – Aug 2024**
- Developed and deployed multi-modal vision network for C3.ai property appraisal R&D
- Developed and deployed a complete ML solution for C3.ai property appraisal product

Founder and CEO at Pencode Software — **Iran - Jul 2016 – Aug 2022**
- Delivered ML solutions for quality assessment (e.g., X-ray tire inspection using CNNs).

Co-Founder and board member in Nimrou startup — **Iran - Aug 2017 – Aug 2022**
- Developed frontend and backend of the website + RESTful API for android and IOS applications
- Currently active, having 10k+ monthly clients

Education

Ph.D. in Computer Science - GPA: 3.91 — **University of Houston - Aug 2022 – Aug 2025**
- Research focus: computer vision, robotics, multimodal deep learning.

M.S. in AI & Robotics Engineering - GPA: 3.91 — **Shahrood Univ. of Technology - Sep 2020 – Aug 2022**
- Research focus: Deep learning, Computer Vision, Biometrics

B.S. in Software Engineering - GPA: 3.67 — **University of Birjand - Sep 2015 – Mar 2020**

Honors and Awards

- 2nd place in Coogs-for-energy hackathon - University of Houston
- 2nd place in C3.AI company-wide generative AI hackathon
- 1st place in 6th Birjand University Annual ACM/ICPC

Certifications

- TensorFlow Developer – DeepLearning.AI
- Generative Adversarial Networks Specialization – DeepLearning.AI
- Deep Learning Specialization – DeepLearning.AI
